Baseball Tomorrow Night

Council Endorse G.W.V.A. Stampede—Will Hold Election for Alderman to Fill Balance of E. M. Smith Term—Suspension Bridge on Kingsmill Avenue—Tenders for Fifth Street Sewer Too High.

The Council met in regular session Monday night His Worship the Mayor presiding. Aldermen Hill, McLure and Johnson, Commissioner Stephenson were present.

Correspondence

A letter was read from the G.W.V.A. Stampede Committee asking that the Mayor proclaim a half holiday on Friday, September 14th, the second day of the large Stampede being put on to raise funds for the committee's work in Red Deer. The committee also wished permission to put on boxing and wrestling bouts at the Stampede as part of the carnival attractions. The Commissioner pointed out that the city by-laws prohibited any boxing bouts within the city limits at which any charge is directly or indirectly made. Councilors felt that they could do nothing in face of the by-law to permit the boxing, but endorsed the wrestling program. They decided in view of the fact that when the Mayor called a half-holiday during clean-up week many of the merchants had refused to comply, that they would not declare a half-holiday unless the G.W.V.A. could submit a petition for the same signed by a sufficient number of ratepayers. The request for the use of the exhibition grounds during the Stampede was granted. C. G. S. Crosby, one of the committee, appeared before the Council in the matter of H. Milton Martin, previously acting as commissioner on subdivided lands, wrote that the work of cancelling subdivisions had been taken over by the Board of Public Utilities. He apologized for the fact that he had previously stated that work in his hands would be completed by him and pointed out that he had been so advised by the Attorney-General.

Town of Canmore received copy of the Red Deer dealing with street traffic thanking the commissioner for use of same. The Department of Agriculture wrote drawing attention of Council to provisions of the Municipal District Act with regard to weed eradication and asking for information. The Commissioner reported that the required information had been sent and the letter was ordered filed.

Manager, Patterson of the Central Alberta Farmers' Cooperative Marketing Association, was present at the meeting and spoke in support of a request by that association for a lease of about one half acre of land owned by the city near the C.P.R. yards, the land to be used for a feeding station and pen for hogs. He pointed out that it would make a great deal more convenient for the buyers, as at present hogs had to be shipped as soon as they were ready. Council were quite in sympathy and granted the request, subject to written lease and subject to the right of cancellation if the land is needed for other purposes. The lease was to be for 5 years and renewable at \$10.00 per acre.

Sell Land in North Red Deer. R. Hermans, of North Red Deer, was present at the meeting. He wished to purchase approximately 60 acres of land north of the city. The greater portion of the land is held by the city, but there are a few scattered lots in the subdivided portion to which private individuals have title. The city will attempt to purchase the land, and if impossible to do so will apply to the Board of Public Utilities in the matter. If they are not to get title, they will go to Mr. Hermans at his offered figure of \$25.00 per acre.

The Commissioners submitted their report as follows: **COMMISSIONERS' REPORT.** The Council, City of Red Deer. Gentlemen: We submit our regular report as follows: The Exhibition went through without any fires, crimes or accidents. The grounds have been cleaned up and everything left in good order. Two windows were broken during the exhibition and the doors of the stables around the outside fence have been fastened up yet. We have had the entrance gates fastened and Chief Streetfield will try to keep children out of the grounds.

3. We have inspected the old Great West Hotel property which the city has title for. This building is entirely beyond repair and is a serious fire menace. We recommend that it be demolished during the winter by the City employees and the material salvaged and sold.

4. We submit estimate of cost of a suspension bridge over Waskasoo Creek on Kingsmill Avenue and as prepared by City Engineer Dave. 5. Tenders were called for construction of sewer on 5th Street near Mr. Dave has been requested to submit full details of cost of a sewer connecting with the present sewer at East Avenue, motor and pump for pumping sewage across the creek and cost of operation of the pump. This will be submitted at this meeting.

6. The roads have got in very bad condition due to the heavy rains. Victoria Avenue, on which there is a lot of through traffic, is particularly bad. To complete graveling this road will cost about \$500.00, but we are not getting enough money to do the hauling. We recommend that the road be crowned, covered with chert and a coating of gravel be put on top. This could be done for about \$700, and we believe would be satisfactory. Later in the season we found necessary, another coating of gravel could be put on the road. The other roads we have visited are in good condition with the gravel, but with

much wet weather they will not stand up to motor traffic. Graveling is the only remedy.

7. The river has kept so high that it has not been possible to get the intake wells cleaned, but this will be done this fall.

8. We submit statement of receipts and disbursements for July.

9. We submit departmental reports for July.

10. We submit accounts for your authorization pay for the following by-laws: (a) To amend By-law No. 488 (all of which is respectfully submitted).

DR. J. COLLISON, A. T. STEPHENSON, Commissioners.

A great deal of discussion arose over the proposed bridge over Waskasoo creek. All the Council felt that the bridge should be built, but it was difficult to see where the money was coming from. E. Howlett was present on behalf of the merchants and pointed out that several lots and places of business would revert to the city if the bridge was not built and the road opened, and that the loss of revenue would be more than the interest on the money to be expended on the work. It was finally decided to have the city engineer draw the necessary specifications for a suspension bridge and apply for tenders for its construction and for the fixing of the connecting roads.

Engineer Dave's estimate showed that the cost of a suspension bridge and the necessary work would be about \$750.00, while a bridge on piles and cement supports would be over \$900.00.

The Chief of Police submitted his monthly report, showing that he had been a great deal of useful work besides his policing duties.

Accounts. The following accounts were authorized for payment: A. D. McKaskill, \$125.00; Bank of Commerce, \$145.00; Bank of Montreal, \$200.00; Fred Hopkins, \$20.00; Registrar of Lands, \$22.50; A. McDougall, \$6.85; J. H. Rehder, \$21.00; J. H. Rehder, \$21.00; W. G. Electric Co., \$20.43; Weaver Ties Service, \$2.50; Canadian Finance Co., \$21.00; J. H. Rehder, \$4.00; Atlas Lumber Co., \$33.43; Land's Port Garage, \$17.05; J. H. Rehder, \$6.55; Don. Miss. Ry. and P. Co., \$18.50; W. Springfield, \$11.15; Royal Bank, \$713.30; Mr. Harper, \$40.50; P. H. Smith, \$10.00; King's Printer, \$4.00; K. Bowman, \$30.00; T. A. Gaetz, \$12.00; July Wage Sheet, \$12.00.

Commissioner Stephenson, at the request of the Commissioners present, moved that the City Engineer be removed from the municipality. It was decided that he should be called an election for an alderman to fill the unexpired portion of E. M. Smith's term.

CITY SOLIDLY BEHIND STAMPEDE

Everywhere the committee go they meet expressions of sympathy for their ambition to build the memorial hall in this city, as well as promises of every assistance and help possible to be given. The merchants so far approached for donation of prizes have responded as they have been asked that have been asked to assist have consented without hesitation.

The Mayor, Commissioner City Council at their meeting Monday night made a grant of \$200.00 and stated that anything left in their power would be done if it would help the good work along.

The committee wish it generally understood that while they wish to make money for a splendid purpose, they are anxious to give the value for the money spent by people attending. A member of the G.W.V.A. will be in each booth in the booths—hams, bacon, groceries, fruit, blankets and other articles as well as the popular dog show.

Wherever it is possible to do so, the articles to be handled in the booths will be put up for sale by local merchants who are supporting the Veterans in their efforts.

Anyone wishing concessions or information can get it from T. Holmes or Chief Streetfield, or from Major C. E. Brown, everyone from the Commissioners on July 30th and sent to R. B. O'Brien, City Engineer.

As the tenders were all considered too high, the cheques were returned to the district.

Mr. Dave has been requested to submit full details of cost of a sewer connecting with the present sewer at East Avenue, motor and pump for pumping sewage across the creek and cost of operation of the pump. This will be submitted at this meeting.

6. The roads have got in very bad condition due to the heavy rains. Victoria Avenue, on which there is a lot of through traffic, is particularly bad. To complete graveling this road will cost about \$500.00, but we are not getting enough money to do the hauling. We recommend that the road be crowned, covered with chert and a coating of gravel be put on top. This could be done for about \$700, and we believe would be satisfactory. Later in the season we found necessary, another coating of gravel could be put on the road. The other roads we have visited are in good condition with the gravel, but with

Mr. and Mrs. P. C. Pederson motorized to Canmore over the week end.

Championship baseball at the school grounds, Thursday night.

Mrs. (Dr.) Dick has been a visitor with Mr. and Mrs. W. Denmark.

Do not forget the wheat pool meeting Saturday night in the city hall.

Mrs. Wm. Ratray, of Venice, Canada, is the guest of Mrs. L. L. Hamley.

The Misses Eyre, of Penhold, are visitors with Mr. and Mrs. H. Ellenwood.

Mrs. J. H. Elliott, of Irma, Alberta, is visiting her daughter, Mrs. M. M. Cook, of Parkville.

Most of the citizens of Red Deer are planning to take in the Regatta at the Lake today.

Many country schools are re-opening. School children will find a complete stock of text books and supplies of all kinds at Gaetz-Cornett's.

Miss Alpha Parke, and her guest, Miss Joan Stewart, of Edmonton, are holidaying at the Park cottage at the Lake.

Will any citizen proceeding to the Lake today with any room in his car please communicate with any officer of the Board.

Be on hand with the routers at the big game on Thursday evening. Your support will help win the championship.

According to the Innisfail Province, E. W. Bjorkeland had things all his own way in the Holstein exhibits at the Innisfail Fair.

Don. Chadsey is in the city for a few days on holiday, accompanied by Mr. Leppard, who is associated with him in insurance.

The C.P.R. to Rocky Mountain House have altered their schedule slightly, the train leaving Red Deer at 12.15, instead of 12 o'clock, as formerly.

Private tuition in shorthand, evening, Isaac Pittman, Special. Group rates to beginners during summer months, A. M. Jamieson, B.A. 5th St. S.

A cordial invitation is hereby extended to all residents of the city to attend the picnic to be held at Sylvan Lake on August 22nd, 1923. Come and enjoy the fun.

Mr. and Mrs. Thos. McGregor and family, of Rehder, are spending the week end in Red Deer last week. They will make their home here, but for the moment are visiting Mrs. Jas. Bower, Jr., of Bimoral.

The Board of Trade will hold a meeting in the Council chambers next Monday night. The business of the meeting will be to discuss the proposed discussion of the formation of a wheat marketing pool in the district.

C. T. Ellice left yesterday for Shelby, Montana. He reported to the Board of Trade that he will be spending in the Red Deer No. 1 this week on the north-east quarter of the subdivided portion of the city. He expects to know by September 10th whether the well will be a producer.

Mrs. E. Bone, of Poplar Ridge, left some very fine rhubarb stocks at the market, which will be on for a few days in the window. They are very good and were grown from seed obtained just last autumn.

Mrs. Bone states that the quantity of this seed, which was grown by herself, for sale reasonably.

A party of Waskasoo people met at the home of Mr. and Mrs. Alfred Dykes on Wednesday evening last to welcome Mrs. Dykes, who came here to spend the week end.

A pleasant evening was spent playing cards and enjoying music. Mr. Dykes has been a resident of the district for some time and is very breaking up the party sang "For He's A Jolly Good Fellow."

R. B. Welliver has been appointed District Superintendent of the London Life Insurance Co. The district extends from Didsbury to Ponoka and the whole width of the province. This company are increasing in popularity daily, and we predict a good business for the district, where their new superintendent is so well and widely known.

The Editor is at the Lake and is getting into fighting trim. Out of the water he will be able to give the name of the culprit who has had his car towed to the lake.

Mr. and Mrs. John Balle leave this week end for a trip to Montreal to attend the convention of the Mutual Life Underwriters' Association of Canada and the convention of the century life insurance companies.

The convention will be held in the fine Mount Royal Hotel, and arrangements will be made for trips of interest to visitors. During the absence of Mr. Balle, L. J. Porter, of the Mutual Life Underwriters, will handle his collections and issue receipts for payment of premiums.

The ball game on Thursday evening is called for 6:00 o'clock sharp. Be there.

It is with the deepest sympathy for the bereaved that we have to chronicle the death at Hillsdown, yesterday, of heart failure, of Norrie Kent Fiske, wife of Leslie Fiske, and daughter-in-law of R. B. Fiske, of Hillsdown, at the early age of 26 years. Besides the sorrowing husband, she leaves five infant children.

The funeral service will be held tomorrow, Thursday, at 2 o'clock, at St. Paul's Church, Hillsdown, after which the body will be laid to rest in the Hillsdown Cemetery.

The Misses Eyre, of Penhold, are visitors with Mr. and Mrs. H. Ellenwood.

Mrs. J. H. Elliott, of Irma, Alberta, is visiting her daughter, Mrs. M. M. Cook, of Parkville.

Most of the citizens of Red Deer are planning to take in the Regatta at the Lake today.

Championship baseball at the school grounds, Thursday night.

A good stock of schoolbooks and other supplies at John McVicar's bookstore, Gaetz Ave. North.

Mrs. J. H. Duff, of Quebec, is the guest of Mr. and Mrs. L. J. Porter, Parkville.

Mr. and Mrs. A. C. Collier and boys returned on Saturday last from a fishing trip to the Highwood river west of the town of High River—Camrose Canadian.

Keep in mind the Horticultural Exhibition on Thursday, August 23rd. Dress on for gardeners are closed, but others entries may be put in up to August 26th. Phone or write Mrs. S. P. Farnely, Secretary.

The Piano Contest, advertising covering which appears on an inside page, offers a splendid opportunity for the girl or lady in need of a good piano. Country contestants have a good show with those from the city.

At the meeting it was moved by W. Lord, seconded by Mr. Kenney: That the Red Deer Golf and Country Club be tendered our thanks and sincere appreciation of their kindness and hospitality in placing at our disposal the grounds and facilities of the Golf and Country Club for the pleasure and entertainment on Wednesday, August 1st, of visiting Rotarians from Calgary and Edmonton, a friendly golf competition.

Frederic Shoultze, President of the Calgary Club, expressed their great pleasure and deep appreciation in his letter of the following day, which we have pleasure in incorporating in this resolution.

W. J. Botterill, Esq., August 2nd, 1923. President, Rotary Club, Red Deer, Alberta.

It is with mixed pleasure and a sense of gratitude that I am writing to you concerning the wholehearted thanks of the Rotary Club of Calgary, and more particularly for those of its members who had the pleasure of the hospitality of your Club and its members when they visited Red Deer on the last day of their tour.

I wish to particularly thank the wives and daughters and possibly the mothers of the members of your Club who assisted so materially in making our visit with you so pleasant. It is certainly an indication of the influence that your Club must wield in your community when the Rotarians feel so wholeheartedly in your activities.

Our boys were unanimous in their repeated reference to the most enjoyable time they had, not only at your luncheon but in the golf contest and other affairs, as well as the fact that your ladies gave the occasion with their presence.

Yours Rotarily, F. L. Shoultze, President.

To the ladies also we wish to express our appreciation of the wholehearted co-operation, and without which the social features of this occasion would not have been possible.

WHEAT POOL CONTRACT NEARLY READY

Calgary, August 14.—Drafting of the wheat pool contract continued to engage the attention of the organization committee on Tuesday morning. The committee worked on the contract all day Monday, and it was completed on Tuesday morning.

Red Deer in Provincial Intermediate Championship Series—extreme and Home Games With Didsbury—Return Game Monday.

The draw for the initial round of the Provincial Baseball Championship Series (intermediate) was made in Calgary late on Monday evening. Red Deer were drawn to play home and home games with the winners of the northern section of the Rosebud League, which was won by Didsbury Red Deer, being an independent entry in the playoffs, the Central Alberta League, of which they were a part, not having affiliated with the Amateur Baseball Association.

Judging by the brand of ball played in the various leagues, and the way the Red Deer team are going at the present time, there is every indication that they will make their way into the finals. To do this they will need the wholehearted support of every baseball fan and citizen. Manager Ely has a good, clean, snappy aggregation in uniform this year, the best Red Deer has had for some time, most of them local boys and boys from the immediate surrounding district, and they fully deserve the support for which they are looking. The games will be played at 6 p.m. sharp to allow plenty of time for the full nine innings before sundown.

The first game will be played in Red Deer on Thursday evening, on the diamond at the school grounds, with Didsbury, and the fans are assured of first class ball. Let everyone turn out and help the boys put across a win. They can do it with your support.

The return game will be staged at Didsbury on Monday evening, August 20th. Let's go.

BASKETBALL

The Red Deer girls should have copied first money at the Lacombe Fair. They defeated Alx in the first round of play and came up to the final against a very strong aggregation from Castor that had already eliminated the Didsbury team.

At the end of the period the timekeeper called time. Red Deer were on top, 10-0, and immediately stopped playing. The Castor girls did not hear the call of time and continued to play, scoring another point and tying the score. A dispute at once arose, and the local girls at once showed their sportsmanship by offering to play an extra period. At the end of this period the score was still a tie, and another extra period was played, with the result that Castor finished one point up, the final score being 11-10.

The Red Deer line-up was Catherine Pike, Lillian Carcaden and Margaretie Kelly, forwards, and Yvonne Macdonald, centre. The Castor team was Norma Kelly, Alice Austin, and Yvonne Macdonald, forwards, and Yvonne Macdonald, centre.

Rev. and Mrs. E. G. Sharnan and son, of Gleichen, arrived in Penhold Saturday morning into the house vacated by Mr. Oxley. Mr. Sharnan will operate the U.G.O. elevator here.

Mrs. Gilmore, of Oids, joined her husband on Friday, he having preceded her by the late train. She is the daughter of Mr. J. H. Gilmore, of the Western Canada Flour Mills Co., Calgary, of which he has charge.

Rev. and Mrs. Herlison and children, of Big Valley, paid Penhold friends a visit Saturday. Mr. Herlison is taking the services of the Presbyterian Church on Sunday.

Another old-time former minister of the church, accompanied by his wife and children, arrived in Penhold Saturday morning. In the person of Rev. Mr. Brooker, of Cochrane, called on old friends while passing through on route to Edmonton on Monday.

Mrs. McCurrie and granddaughter, Sarah McNeill, returned to their home at Delta on Tuesday.

Mr. F. Jackson, of New Westminster, who has been visiting his niece Mrs. F. V. Hives, for the past week, returned home on Monday last.

A meeting will be held in the Memorial Hall, Penhold, on Saturday, August 18th, at 8 p.m., with Donald Cameron, M.L.A., as speaker in the interests of the wheat pool. All interested are urged to attend, as signing of contracts will be in order at this time.

The regular monthly meeting of the Women's Institute will be held on Thursday, August 23, in the hall, on time, 2:30 p.m., for the community singing, to be followed by a most interesting program.

The Misses Eyre are spending a week's holiday at the home of Mr. and Mrs. Ellenwood of Red Deer.

Opal Parsons, Eva Page and Agnes McAllister were successful in the recent Grade X departmental examinations.

Didsbury vs. Red Deer in the first round of the baseball play-off at the School grounds on Thursday night.

CHURCH NOTICES
St. Luke's (Anglican) Church—Divine service on Sunday next, August 19th, at 10 a.m. In the hall, 2 p.m. a.m. matins and sermon; 7:30 p.m. evening and sermon. The Ven. Archdeacon A. P. Hayes, of Calgary, will conduct the services and will preach.

On the following Sunday, August 26th, no public services of the church will be held, as the Rector will be on vacation. Rev. G. McComas, M.A., Rector.

Christian Science Society, Michener Block, Sunday service at 11 a.m.; Sunday School at 12 o'clock. Wednesday, testimonial meeting at 8 p.m.

United services for August: Sunday, August 19th—11 a.m., Methodist Church; 7:30 p.m., Presbyterian Church. Sabbath school—Methodist Church, 10 a.m.; Presbyterian, 12:15 p.m. A heavy invitation to these meetings is given to all not worshipping elsewhere.

Balmoral school house, August 19th.—All the people of the district are invited to public worship at 2

The latest style from Paris— At your service!

A little time, a little money and the Deltor are all you need in order to be the best-dressed woman in your community. You will find the Deltor—a wonderful sewing guide—enclosed with every new Butterick Pattern.

Buy your pattern at our Butterick Pattern counter and then visit our piece-goods counter. Here you will find serge,

crepe satin, silk crepes, heavy crepe de Chine, jersey—all the popular materials in the new shades.

The Deltor shows you with pictures how to lay out your pattern on the least possible amount of material, how to put your dress together, step by step, and how to add the finishing touches that give your dress a delightful Parisian air.

4662—Charmeuse, crepe satin, plain or printed satin crepe and silk crepe are among the materials recommended for this dress. Visit our piece-goods counter to-day and make your selection.

4724—When and how are the tiers attached to this wrap-around coat dress? The Deltor shows you with pictures exactly how to do it and how to make the loop that finishes off the side-closing.

4693—Even though this dress has long sleeves, only 3 1/2 yds. of 39-inch material is needed for size 36. The Deltor shows you how to lay out your pattern on the least possible amount of material.

Always use Butterick Patterns with the Deltor!

BRUMPTON & GAETZ, LTD.

CANNOT PACK TRENCH SLO TOO TIGHTLY

Spillage Results From Loose Packing or Using Ensilage Too Dry

(By James Murray, District Agriculturalist, Medicine Hat, in Calgary Market Examiner.)

The trench silo is beyond the experimental stage. There were several hundred in use in Alberta last year, and they gave almost universal satisfaction. The success which has attended their use has encouraged the more general planting of silage crops such as corn and sunflowers.

The reason for growth has been favorable and many groves are now considering the storage space for all the crop.

It is worthy of note that all the trench silos built last year have not given perfect satisfaction, the first year need not deter any one from filling the silo again as the reason for failure is usually easily overcome. The trouble usually comes from insufficient tramping or from having the material that is being ensiled too dry, or it may be both.

At any rate moulding or rotting can only take place in the presence of air, and if the air is driven out the silage will keep without loss. The success of the trench silo, or any other silo, depends on having the material in a green enough condition to pack, and to tramp it enough to drive out and exclude practically all the air.

In digging a trench silo it is advisable to provide for at least six feet in depth of silage, but it may be 10 or 12 feet, or even deeper. The greater the depth the less surface is exposed and the smaller percentage of loss. In estimating the size required a good rule is to allow 45 cubic feet for a ton. An eighty-ton silo could be the following dimensions: 8 feet deep, 12 feet wide and 50 feet long; or of 140 tons: 6x12x55.

In digging the trench silo it is not necessary to do much hand work with shovels, only sufficient to have the sides reasonably smooth. It is advisable to have slightly greater width at the top than at the bottom, but not so much as to interfere with the settling of the silage. If the top width is 12 feet it would be suitable with 10 feet at the bottom.

When the crop being used is corn, it is best to have well ensiled corn silage before cutting. The silage from corn without ears has a comparatively low feeding value compared with silage from ears well planted. Silage from ears, packed better silage and richer feed.

allowed to get seed formed in the head.

In filling, the important point to keep in mind is that thorough tramping with horses is essential. There is no danger of overdoing it, but moulding and decay is sure to result if the tramping is insufficient. No only should tramping be continued while filling proceeds, but every two or three days for ten days after filling a four-horse team should be walked back and forth on the silage several times, to keep it solid as it settles. If the material going into the silo tends to be too dry to pack well, water it at intervals during the filling and after filling is completed. A layer of straw may be put on top and after working thoroughly tramped down. This is not necessary but tends to reduce the amount of decayed ensilage on top.

Some form of roof should be provided to keep snow from drifting in during the winter. The commonest roof is one of poles and a few loads of straw. The roof, of whatever material, should be a movable one, so that it can be removed at will during the following year.

THE ASSEMBLY AND "CHURCH UNION"

To the Editor of The News:

Since the Presbyterian Assembly's recent session a new church union movement has been in progress. The movement is a new church union movement, and it is a new church union movement. The movement is a new church union movement, and it is a new church union movement. The movement is a new church union movement, and it is a new church union movement.

That action of the Assembly is a menace to religious liberty, and to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church.

and the church of his choice gone for ever. No institution of any kind—school, hospital or asylum—depending upon trust funds, would be safe, for these funds might be confiscated at any time by similar act of parliament and handed over to some non-Christian and non-Christian organization.

That action of the Assembly is a menace to religious liberty, and to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church.

And now a majority of the Assembly, disregarding all agreements, are attempting to force the "Union" movement upon the churches. This is a new church union movement, and it is a new church union movement. The movement is a new church union movement, and it is a new church union movement.

And now a majority of the Assembly, disregarding all agreements, are attempting to force the "Union" movement upon the churches. This is a new church union movement, and it is a new church union movement. The movement is a new church union movement, and it is a new church union movement.

chaos ensues." It is not the Presbyterian Church pledged to the other churches? Certainly not. No one has any right to pledge that church to give up her identity. If any feel that they have pledged themselves, they are free to go, but the Presbyterian church will remain, in unity and brotherhood with the world-wide Christian church, a loyal participant in the world-wide Christian Army under Christ its King.

The action of the Assembly is a menace to religious liberty, and to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church. It is a menace to the work of the church, and it is a menace to the work of the church.

And now a majority of the Assembly, disregarding all agreements, are attempting to force the "Union" movement upon the churches. This is a new church union movement, and it is a new church union movement. The movement is a new church union movement, and it is a new church union movement.

good condition again. Even hens that have been loafing and are consequently fat are not in as good condition for killing as they should be. Ten days feeding in the crates will make a great difference in these birds, as the crate feeding and the inactivity softens the muscles and makes the fowl much more tender and juicy.

Many poultry growers do not consider that special feeding of broilers is necessary. They think that because the chickens are young that they will be tender and consequently they take them from the range and market them as they are. Such methods tend to retard the demand for poultry meats. A consumer who gets a broiler that is hard and stringy is not inclined to order another, but if he gets a broiler that has been properly fed in confinement for ten days to two weeks the quality will be such that he will want more. To properly finish either fowls or broilers, they should be crate fed. Nothing but soft feed should be used, and to get the finest quality it is necessary to mix the mash with some milk. In the proportion of about three pounds of milk to two pounds of grain. A mixture of equal parts of fine ground oats and cornmeal is one of the best feeds, but other grains may be used if lower in price or more easily obtained.

A little salt added to the feed will make it more palatable, and the fowl will eat more. Do not over feed for the first day or two, as the birds will go off their feed and will lose weight instead of putting it on.

Only by marketing poultry of the highest quality, with an increased demand be created.

C.P.R. CONTRACT HOLDERS' ASS'N PLANS CAMPAIGN

Claiming that the new amortization plans of the Canadian Pacific Railway Company will not be of any great benefit to the farmers purchasing land from the company, the C. P. R. Contract Holders' Immigration Association, at a meeting held in the offices of the U.P.A., Friday, decided to circulate the 30,000 farmers who are on the C.P.R. land, appealing to them not to sign the new contract, but to hold out for the terms asked for by the association at its last meeting. Under the new contract the payment is spread over 22 years instead of 36, but the farmer is called upon to pay considerably more for the land than he would have to under the old contract.

Montreal, August 6th, 1922.

FINISHING HENS AND BROILERS

Dispose of all hens that are not to be kept over for broilers just as soon as they are laying. If the plan is followed, the marketing will be expedited over a considerable period. If you can get them all marketed before broilers become plentiful, you are certain to obtain much better prices than if you market later in the season.

After hens have been laying heavily they are likely to be late in their laying. If they will not, then the birds should not be marketed until put into

Vice-President Grant Hall Says Big Crop is Assured

Speaks with enthusiasm of Western Conditions in light of twenty-five years' experience—Big Company adds miles of new Rolling Stock to take care of grain movement

Twenty-five years intimate and continuous acquaintance with Western Canada would give any man the right to speak authoritatively of conditions there, and when that man is Grant Hall, Vice-President of the Canadian Pacific Railway, his views will be accepted without question wherever published.

Grant Hall has just returned from a tour of inspection over the line. He has been all through the West and he returns to Montreal full of enthusiasm about Western crop conditions, and quite realizing the immediacy of the task that lies before the railroads in moving this crop.

It was agreed that last year's handling of the crop left no room for criticism. The tremendous task of moving out the grain was handled in splendid style by the railroads, and there is every indication the same thing will happen this year. Grant Hall, interviewed on his return to Montreal, said: "The Canadian Pacific is preparing to move the grain and we expect to keep up to all our previous good records in that line."

It was fortunate for Canada that the company months ago decided to largely add to its rolling stock. The Canadian Pacific is this year buying 36 engines and 2,000 new freight cars or practically forty freight trains of 100 cars each. Enough equipment to have moved the entire western crop of a very few years ago. This new equipment will be on hand to do its share of the work this year.

Mr. Hall makes no prediction as to the actual yield, but of the general conditions he says: "In the last few years in which I have watched the development of the grain crop I feel safe in saying that never have I been quite so enthusiastic about the prospects. Generally at this time of year there are many reports of damage by

W. GRANT HALL, Vice-President of the Canadian Pacific Railway.

drought or rust or hot winds, but so far we have had no such reports and we are laying our plans to move the largest crop in the history of the west. My trip has covered practically all the grain growing west, leaving Winnipeg we went south to Souris and through southern Saskatchewan to Shaunavon and returning to Assiniboia, we came back to the main line and followed it to Calgary from Moose Jaw. At Calgary we visited the stampede and I should say it was a pronounced success. Going north again from Regina we visited Saskatoon and came in by the north line through Brandon.

"For uniformity and fine growth the crops are a great sight and unless some unexpected calamity overtake us we shall see a splendid harvest this year."

Moderation League of Alberta

Suggestions To Voters

The Moderation League of Alberta submits for the consideration of the electorate of this Province:

1. That the Prohibition Act now in force in this Province has lamentably failed in the purpose for which it was enacted, because implementation cannot be eliminated by legal enactment, but by moral suasion and education.

2. Because Prohibition puts all kinds of liquor in the same class and treats all the same way.

From the standpoint of intoxication, strong alcoholic drinks, needless to say, are the most dangerous, and prohibiting the use of them without the support of a large majority of the citizens, leads to their illegal sale and illicit distilling, so prevalent now in Alberta.

The use of a light beer as a beverage will put the average man a reasonable distance from the temptation of strong drink, as light beer stimulates without intoxicating. This is just what "D" will accomplish if approved of by a majority of Alberta citizens.

A vote for "D" is a vote to eliminate beet-legging and illicit stills.

POST OFFICE SOLVES A LABOUR PROBLEM

Postal Pool Created to Give Continuous Employment and Improved Service

Among the many problems confronting the present Government on taking office was the re-establishment of returned soldiers, particularly those who through disabilities sustained on Active Service, were unable to follow their previous occupations.

Especially was this a vital question as regards those departments which require large numbers of employees to carry on the work both at Ottawa and throughout the country. Since the conclusion of the Great War returned soldiers have been given preference in the matter of employment in the Civil Service. One of the most extensive and widespread channels of employment has been the Post Office department.

A great number of returned men were taken on in the several city post offices and other branches of the postal service to replace permanent employees who left the service for various reasons. In addition, a large number have been afforded temporary employment from the April to October—to relieve members of the regular staffs on annual leave.

Heretofore, temporary men taken on for holiday relief purposes were, with very few exceptions, trained in post office work. Moreover, their services were dispensed with at the end of October—a very unfavorable time of the year owing to the difficulty of securing other work to tide them over the winter months. From a labour standpoint this was most unsatisfactory.

Representations were annually received from numerous organizations of all classes asking the Government to retain these temporary men for the winter months. This was done by recalling those whose services had been dispensed with and retaining these still on duty, with the result that the offices were overmanned for a part of the year; unnecessary expenditures in the way of salaries were incurred; the working output of the staff individually was lessened; and the efficiency of the staff thereby impaired.

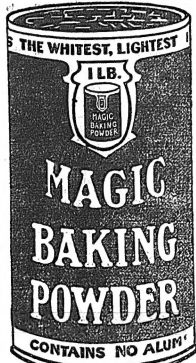

With a view to obviating the necessity of releasing the annual leave help at the end of the holiday period and to increase the efficiency of the service the Postmaster General directed the officers of the department to go to the whole matter thoroughly. A proposition has now been approved by Postmaster General Murphy whereby the annual leave will be spread over a period of ten months—February to November—instead of six months as formerly and by the establishment of what is known as a Postal Pool.

The Postal Pool will constitute a permanent relief staff to take care of annual leave, sick leave, Christmas rush work and other emergencies. This will mean that a full staff of trained employees will be available at all times. Also the taking on of green hands at the beginning of each holiday season will be eliminated and the temporary help required at Christmas will be materially reduced.

The Postal Pool will virtually provide a training ground for post office employees from which they will be drafted to the regular staff as vacancies occur. All new employees entering the service will be first attached to the Postal Pool and will be assigned work suitable to their capabilities. While undergoing the training they will enjoy all the privileges of civil servants.

Employees in the Postal Pool giving a satisfactory service will be advanced to the regular staff as vacancies occur. In this way continuous employment will be given instead of annual temporary employment as in previous years.

The officers of the department are

unanimously of the opinion that the morale of the staffs of the city post offices will be improved, and that a more efficient as well as a more economical service will obtain.

GENERAL CHANGE in TRAIN SERVICE

Times for trains at Red Deer will be:
Northbound: Leave
Daily—No. 521 4:55 a.m.
No. 525 5:40 p.m.
Daily except Sundays—No. 523 11:40 a.m.
Southbound:

Here and There

The total elevator capacity of Port Arthur and Fort William will reach 65,000,000 bushels by September of this year. By the end of 1924 the elevator capacity is expected to reach seventy millions.

Immigration returns of the Canadian Government for the first five months of the present year show an increase of one hundred per cent increase in immigration from the British Isles, the highest for the same period of last year.

The 1923 apple crop of the Okanagan Valley will amount to 4,620 cars according to the estimate of W. T. Hunter, district horticulturist. This is an increase of 20 per cent over last year, and a record for the district. The apple crop for Kootenay and boundary districts will approximate 380,000 boxes.

A new high record of production was established by Canadian newspaper mills during May with 110,252 tons, an increase of nearly 10,000 tons over the month of April and 15,750 over May of last year. The daily production in May was the highest in the history of the Canadian industry.

Following the opening of the Battle of Vimy Ridge by Lieutenant Governor Nichol of British Columbia and Randolph Bruce were honored by the many Indians who made them an honorary chief and full chieftain of their tribe respectively. The Indian celebrations were held at Invermere in the beautiful Windermere Valley.

Several new air stations are to be opened in Ontario and Quebec in the near future for the purpose of extending the forest area to be patrolled by airplanes. A base is to be established at Ramsay Lake near Sudbury, and from this point all Ontario work will radiate; operations being carried on at Orient Bay, Remi Lake and at least two other points.

If the Canadian war exports of flour are considered as 100, the Dominion's average export total between 1921 and 1923 can be considered as 207. Comparatively pre-war exports of the United States being rated at 100, its present export is at the rate of 147. This indicates that Canada has more than doubled her export trade in flour while the United States has increased its trade by 47 per cent. Before the war Canada exported 3,832,000 barrels, while at present her exports average 7,885,400 barrels a year—"Journal of Commerce."

Mr. Georges Delrue, one of the most important personages of France arrived in Montreal by the S.S. "Minotaur" to take up residence at St. Johns, Que. Georges is two and a half years old and has spent most of his life with his grandparents in Tourcoin, a small town on the border line of Belgium and France. The journey from the old home, via Antwerp, Georges made alone but never out of sight of the watchful eyes of the officials and servants of the company.

Major General Lord Lovett, a passenger on the Canadian Pacific liner "Montcalm," and delegate to the British Empire Forestry Conference, Ottawa, said in connection with his investigations into Canadian forestry methods and applied science, "England has but a small forest area in comparison to Canada, nevertheless, her forests were depleted two-thirds to meet the emergencies of the War, and now we are determined to recover this loss by practical reforestation. We have been working at this for the last three years and expect to make a completion of our work in another year."

THORNTON THANKS C. N. R. EMPLOYEES

Montreal, August 6.—In a message to the employees of the Canadian National Railway, Sir Henry W. Thornton, chairman and president, says, "I am frequently in receipt of unsolicited and favorable reports of the courtesy passengers on our system receive from all employees, especially those who come in contact with the travelling public on trains. Conductors, brakemen, dining and sleeping car conductors, waiters and porters, have all been instrumental in bringing this about; nor must I forget to mention our station and ticket agents. It is just as important to know when a thing is well done as to know when it is badly done. Therefore, I want to thank all of you in this service for the good work you are doing in this direction. Each day it is bringing us more business and creating a pleasant feeling toward the National System in the public mind. I know personally of at least a dozen cases where the kindness of some employee has made a 'passenger' of a passenger for life and brought us considerable business. This, now we see the fruits of what we are doing, let us 'hit the ball' all the harder."

PIANO CONTEST

A Beautiful WILLIS ART PIANO, costing \$550 will be Given Away Absolutely Free

by the McLARTY HARDWARE CO. and THE NEWS PUBLISHING CO. Read the Rules of Contest. Other Valuable Prizes announced later.

Nominate a friend today and then help the work along. Every District should have one contestant and all have an equal start and opportunity.

START NOW! WORK HARD! BE A WINNER!

USE THIS NOMINATION FORM

I hereby nominate of District as a contestant in the Piano Contest of the McLarty Hardware Company and The News Publishing Company.
Contestant's P.O. Address

RULES OF CONTEST

- The Contest opens Monday, August 27th, and closes at midnight on Monday, December 24th, 1923.
- Each contestant must be nominated on the blank below and only nominations of individuals will be accepted.
- On acceptance of any nomination the person nominated will be notified and will be credited with 5,000 free votes.
- Each contestant on the nomination being accepted will be given a number and the votes may thereafter be deposited to his or her credit by name or number.
- All votes must be deposited in the ballot box for that purpose in the store of the McLarty Hardware Co. or may be mailed in with instructions to deposit them for any candidate.
- Votes must be placed in an envelope or package with the name or number of the contestant to whom they are to be credited plainly written thereon.
- Votes will be counted at frequent intervals and the results announced in The News.
- Votes must be deposited within one week of the Saturday of the week in which they are issued. They will be of different color or design each week.
- For each cent paid to the McLarty Hardware Company the voter will receive one vote. This applies both to outstanding accounts and to purchases of goods made during this contest.
- Additional votes may be given from time to time, at special sales, on special articles, or as the management sees fit, but all contestants will be notified in advance of such opportunities.
- For each year's subscription to The Red Deer News, whether on arrears or in advance, the subscriber will receive a credit slip entitling him or her to 500 votes on his presentation at the McLarty Hardware Company store.
- After votes have been deposited and registered for one contestant they may not be transferred to any other contestant.
- No person employed by or connected with The News Publishing Co. or the McLarty Hardware Co. will be allowed to compete, or to receive votes for purchases or subscriptions.
- The Contest will be under the sole direction and control of the McLarty Hardware Co., who will total all votes on adding machines.
- The person who has the greatest number of votes at his or her credit at midnight on December 24th will be given a fine \$550 WILLIS ART Piano, similar to the cut above.
- The management reserve the right to donate further prizes at any time as they see fit, or to add to the rules governing the contest.

WEDNESDAY, AUGUST 15th, 1923.

THE WHEAT POOL

AND MR. SAPIRO

Mr. Sapiro has now been in Alberta

for some little time. He has spoken

in a number of centres to large audi-

ences and there has been time to read

and consider carefully his speeches.

They have been received with enthusi-

astic approval, and such hostile criti-

cism as they have received, has been of

small volume, and of a somewhat

superficial and trivial character, bear-

ing traces of personal feeling rather

than considered adverse judgment.

The speeches have been good

speeches, simple, clear, at times elo-

quent, and attractive in style to those

to whom they have been addressed.

The scheme of co-operative marketing

of wheat which Mr. Sapiro advocates

contains no surprising elements. It is

a commonplace plan without any

miraculous elements in it. There

are two main principles involved. The

first is the agreement of at least 50

percent of the wheat growers in the

province to pool their wheat for the

market over a period of at least five

years. The second is the employ-

ment of a good salary on behalf of the

pool of the best expert grain dealer

available to organize the marketing

of the wheat. On these two bases

the whole plan rests, and as soon as

the fact is realized, it tends to create

a feeling of surprise that so apparent-

ly simple a plan was not adopted long

ago. Mr. Sapiro, however, recognizes

and put before his audience possible

grounds whereby this excellent

scheme may fail. One is that the

farmers may not join the pool, either

because of suspicion or the deep-

rooted tendency to resent the imposi-

tion, or because of being tempted

by some crafty speculator offering a

temporarily higher price just in order

to break the pool. Another is that

the marketing expert and his

assistants may fall in their appointed

task and before his audience possible

grounds whereby this excellent

scheme may fail. One is that the

farmers may not join the pool, either

because of suspicion or the deep-

rooted tendency to resent the imposi-

tion, or because of being tempted

by some crafty speculator offering a

temporarily higher price just in order

to break the pool. Another is that

the marketing expert and his

assistants may fall in their appointed

task and before his audience possible

grounds whereby this excellent

scheme may fail. One is that the

farmers may not join the pool, either

because of suspicion or the deep-

rooted tendency to resent the imposi-

tion, or because of being tempted

by some crafty speculator offering a

temporarily higher price just in order

to break the pool. Another is that

the marketing expert and his

assistants may fall in their appointed

task and before his audience possible

grounds whereby this excellent

scheme may fail. One is that the

farmers may not join the pool, either

because of suspicion or the deep-

rooted tendency to resent the imposi-

tion, or because of being tempted

by some crafty speculator offering a

temporarily higher price just in order

to break the pool. Another is that

the marketing expert and his

assistants may fall in their appointed

task and before his audience possible

grounds whereby this excellent

inevitable that some of these middle-

men must find other spheres of opera-

tion (to put the matter politely), or

other realms of plunder (to put it

otherwise). It will be of no little im-

portance to see the counterforce in the

game, which may develop. It will

course as the result of the threat to

the grain middlemen.

The whole scheme represents a

great step forward on the part of

the farmers' union, and is a step

towards the realization of the

industrial revolution, which some

observers think they see spreading

over the whole civilized world. It is

evident from some passages of Mr.

Sapiro's speeches that the scheme

is not a member of the organiza-

tion, is liable to be at a serious

disadvantage. Suppose the organiza-

tion does get the ownership of the

elevators in any district, as it propo-

ses to do. Then apparently no farmer

in the district, not a member of the

pool, can sell his wheat to such

elevators. Similarly a private eleva-

tor or owner who will not sell the eleva-

tor to the pool, is liable to find himself

forced with the competition of a pool

owned elevator alongside his one with

all the resources of the pool behind it.

Banks in rural districts which do not

support the pool, will find themselves

exposed to serious hostility and prob-

able loss of business. This is in ac-

cordance with the principle of great trusts

and great unions which from time

to time have aroused the indignation

of the public, including the

farmers. Now the farmers are ap-

parently going to do some of the things

which have been the undoing of the

helpless and the unprotected middle-

men, who will no doubt cry to

heaven for justice and vengeance

against the farmers and their pool in

the future. The farmers have had

hitherto done under other cir-

cumstances. Oppression and down-

trodding take on entirely different

aspects according as one is the down-

trodder or the downtrodden.

There was a time when the hey-day

of the feudal system of Europe when

no man could count his life or property

safe unless he belonged to some feudal

organization, unless he was the

henchman of some great military bar-

on or a member of some town guild.

So now in this age of trusts and com-

panies the individual is finding that he

cannot succeed commercially unless

he joins his fate with the union or the

federation of manufacturers or his

farmers' union. This is a new thing

in the history of the world. It is a

new thing in the history of the world.

It is a new thing in the history of the

world. It is a new thing in the history

of the world. It is a new thing in the

history of the world. It is a new thing

in the history of the world. It is a new

thing in the history of the world. It is

a new thing in the history of the world.

It is a new thing in the history of the

world. It is a new thing in the history

of the world. It is a new thing in the

history of the world. It is a new thing

in the history of the world. It is a new

thing in the history of the world. It is

a new thing in the history of the world.

It is a new thing in the history of the

world. It is a new thing in the history

of the world. It is a new thing in the

history of the world. It is a new thing

in the history of the world. It is a new

thing in the history of the world. It is

a new thing in the history of the world.

It is a new thing in the history of the

world. It is a new thing in the history

of the world. It is a new thing in the

history of the world. It is a new thing

in the history of the world. It is a new

thing in the history of the world. It is

a new thing in the history of the world.

lessly. The present wheat pool is

now in process of rapid organization

because it has received an initial

impetus from a most inspiring per-

sonality and energetic action. It is

Mr. Sapiro's personality which has

suddenly galvanized into action the

hesitating, deliberating, discussing

leaders of the farmers. The auto-

cratic policy of Mr. Sapiro, with his

personalities and energetic action, is

the scheme of group organization and

class government, the honest but be-

widened and groping parliamentary

leaders, have been suddenly started

into action as if someone had put a

long sharp pin into them from be-

hind, and have hastened to put them-

selves at the head of a movement

which their practical experience and

public positions ought to have led

them to bring into existence long ago.

Mr. Sapiro wisely—and also actually

—pointed out that the present pool is

better as a private organization than

as a public or government venture,

but that hardly acquiesces the farmer

leaders of the responsibility for their

future and encourages the possibi-

lities of dealing with a situation, the

needs of which were glaring enough,

until those possibilities were pointed

out to them by an outsider. The

time and organization devoted to

winning almost wholly unproductive

power for the benefit of the farm-

ers' Party might, if better applied,

have long ago brought into successful

existence a wheat pool for the ben-

efit of the farmers' children.

Mr. Sapiro made it quite clear that

co-operative marketing has not been

an unqualified success from its out-

set or all through its career. Mist-

akes have been made and failures

have resulted therefrom. In all prob-

ability mistakes will be made in the

future. But from time to time will be

paid for, but he did maintain that on

the whole the movement had been

a great benefit to the producers and

in its essence a thoroughly sound

scheme. That it will succeed in the

Western Canada also should be the

wish of every wise man and woman

amongst us.

MORMONISM IN ALBERTA

In the course of this month the

Mormon temple at Cardston is to be

formally dedicated, and thereafter we

understand that except on certain oc-

casions it will be closed to the general

public, and only members of the

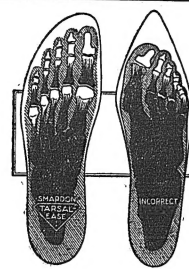

Mormon church will be permitted ac-

cess to it.

WOMEN'S TARSAL-EASE OXFORDS

Women's Tarsal-Ease Oxfords are sure relief to all foot troubles. These Oxfords of black and brown are made of finest quality kid, on comfortable, good fitting, semi-recede last, with cushion heel.

The arch of the shoe is so constructed with steel shank that it distributes evenly the entire weight of the body from the heel to the ball of the foot, giving you the proper 3-point bearing and relieving all hard pressure from ball of the foot.

THE EMPRESS SHOE FOR WOMEN

These few lines of advice need only be for women who have not worn the "Empress Shoe." Women who are troubled with tired, burning, aching feet are not women who wear Empress shoes. They are shoes which are made by expert shoemakers, and made in a manner which ensures solid comfort, and yet retaining the smart, graceful lines of the high class shoe which every woman adores. The wearing qualities of this shoe are easily understood by the fact that they are made of nothing but select materials.

Queen Quality

SHOES

QUEEN QUALITY SHOES

are too well known to need an introduction. The finest in women's comfort for every occasion.

SMARTON SLIPPERS

are, in our opinion, the best slippers made in Canada, combining style, comfort and service.

OH BOY!

We're off to school in shoes from Lord's—full of comfort and built to stand the knocks.

THE EMPRESS OXFORDS FOR MINE

You have nothing on us in your new boots, old boy. See my Empress Oxfords.—Sister.

WILLIAMS SOLID LEATHER SHOES

Growing girls, attending country schools, find comfort and satisfaction in a shoe like this.

WILLIAMS SHOES FOR BOYS

We know you have your troubles fitting your boys with shoes that will stand hard wear. So we make it our business to pick out a shoe to meet your test, and here it is:

Williams Black or Brown, solid Elk leather Blucher, double toe cap, triple sewn throughout, solid leather oak soles, sewn and rivetted; made on a full fitting round toe last. This is an ideal shoe for school or everyday wear.

THE COTE SHOE

Our reason for handling the Cote shoes is excellent. We know they are the lowest priced shoes in Canada to stand the test. They are made by real shoe makers to fit and give comfort as well as stand the wear and tear of a shoe twice the price. We are satisfied that in selling you this shoe we have given you a shoe for as little money as the trade permits and inasmuch a shoe for perfect satisfaction.

THE SLATER SHOE

It's an understood fact that the Slater Shoe is the best made shoe in Canada. Its wearing qualities are unequalled, for it is of the very best selected materials on the market. They fit like a glove and hold their shape throughout their career. This shoe is absolutely the best value on the market today. That's our reason for handling this line of shoes.

THE WILLIAMS SHOE

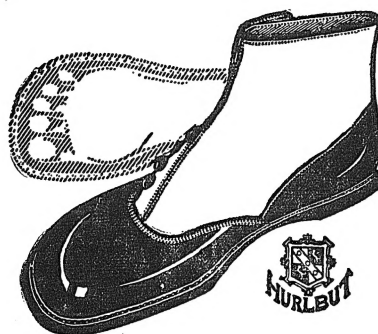

For your better satisfaction in buying a working shoe we handle the Williams Shoe, which is the outstanding work boot of Canada. It's made of nothing but genuine leather throughout, and it is made on a last that insures solid comfort, and the wearing qualities are beyond expectations. One trial and you are convinced.

Foot Appearance is the most Important Feature in one's dress. If you are wearing good shoes and a good hat, you are well dressed, even if the other garments are not absolutely up-to-date.

FOOT COMFORT is of equally great importance, and increases efficiency as well as it improves the disposition. One cannot be good-natured when suffering from ill-fitting shoes.

OUR SHOE DEPARTMENT is as much a Shoe Store as if it were an individual business in self-contained exclusive premises, and our Shoe Service is a Personal Service by men who have been specially trained in Shoe Service and Foot Comfort.

Not how cheap, but how good, is the keynote in selecting and purchasing our shoe stock, and yet our prices compare favorably and our prices are better. We are the Exclusive Agents in Red Deer for all the Brands or Manufacturers' Lines quoted here.

Mothers!

A Question for Mothers with moderate purses—and a sincere answer by the Makers of the Highest Quality Shoe for Children

Do Hurlbut Shoes really cost more?

WHEN you go into a store and ask for Hurlbut Shoes you may feel that the price seems high. You may be tempted to seek an apparent saving by buying shoes at less than Hurlbut's cost. But if you do, you will be disappointed later on, and will surely resolve never again to buy a cheap shoe.

Here is the true situation: Hurlbut Shoes do represent the very highest quality in a shoe. Hurlbut Shoes will last two or three times as long as inferior shoes, and they are scientifically designed to meet the special requirements of children's feet. That is why thousands of mothers all over Canada prefer to pay the higher price for Hurlbut's.

The point we want Mothers to thoroughly understand is that the selling price of Hurlbut Welton Shoes is always as low as it can be for such a shoe. The high price of Hurlbut's is due alone to the fact that such quality can not be produced for less. So long as we maintain—and we shall always

maintain—the quality of materials, design and workmanship, it is impossible to sell Hurlbut Shoes at any lower cost. The very highest quality of goods we can obtain goes into their makeup. And, as prices of raw materials advance, we do not substitute with a cheaper kind.

Every Hurlbut Shoe has a standard, and as we can't reduce the standard we must pay more for our raw materials, labor, etc., in order never to vary from this standard. So that, while mothers are required to pay more for Hurlbut's at the time they are bought, the cost spread over the time they last makes Hurlbut's cheapest in the end.

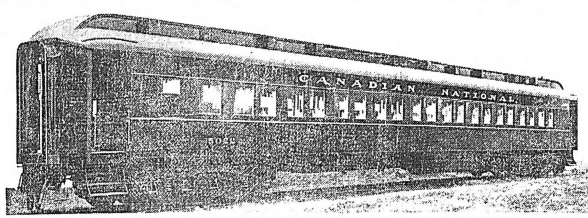

Compare Hurlbut's with the life of any pair of ordinary shoes you have ever bought—and you will see that Hurlbut Welton Cushion Sole Shoes represent the lowest price-per-day's-wear of any shoe made for children.

These are the points of superiority of Hurlbut's that distinguish them above all other shoes for children:—

- Correct Shape for growing feet
- Broad Extended Sole to protect uppers
- Flexible—no tacks, no ridges
- Cushion Soled from heel to toe
- Ventilated for comfort and cleanliness
- Sturdy Grace and refinement of line

Being the authorized exclusive agents of the Hurlbut Shoe in Red Deer, we carry complete ranges of all styles and sizes to Misses No. 2.

NEW ALL-STEEL CARS BEING INSTALLED ON NATIONAL SYSTEM

Typical all steel first-class coach, of which forty-one have been ordered this year by the Canadian National Railways. They are made in Canada. These cars have been assigned to the main line of the System, an all steel equipment being the standard adopted by the Canadian National Railways.

NEW ELEVATOR AT HAYNES

Everybody is greatly pleased that the new elevator is an assured fact for this season's crop. Already the House Grain Co. have five cars of material on the old site, and a large force of men are on their way. Mr. Oscar Peshko has been superintending the unloading, and we understand is to be the local buyer under his old superintendency in the south. The A. P. was also a bidder for the former elevator property, but the farmers in general are glad to see the present company erecting one anyhow.

The lumber company intend to put in a small tank in the old lumber yard, and Stuart Thompson will act as agent for the time being.

Oliver and Gordon Rusk have gone to Saskatchewan to work.

Everybody was in to the Red Deer Fair and report a good time.

Miss Lucella Hild has been spending a few days' holiday at Red Deer.

Alex Norquays have been spending

Ross St., Red Deer
(One door west of Brazier's)

a delightful holiday at Gull Lake.

The A. P. P. from Red Deer have been out investigating the recent fire.

Miss Bessie Thompson, of Red Deer, has been visiting Rudy Irish the past week.

Misses Vera and Lou McRoberts of Red Deer, stopped off at the manse en route to Stettin.

Mrs. Anderson's sister, Mrs. Blair, and son and daughter from Saskatchewan, have been visiting at the station for a few days on their way to Drumheller.

The Ladies' Club met for August at the home of Mrs. Laskeman. After a short business meeting, delightful refreshments were served and a pleasant social hour was spent by all.

Mr. and Mrs. Anderson and Bobby have returned from a delightful 2700 mile auto trip, covering about 3 weeks. They travelled over several famous points of interest in Washington, Idaho and Oregon, touching the Coast, and including our Banff-Windermere highway. Of course the fruit orchards were the most tempting, but Mrs. Anderson says the dogs looked fierce. However, our own local crops looked up mighty good on the return trip.

6,884 FORDS IN A SINGLE WEEK

Detroit, August 4.—Another new production high spot was set up by the Ford Motor Company a couple of weeks ago. It came when the domestic assembly plants established a new daily record by turning out 6,884 completed cars and trucks. This is 67 better than the previous high mark of June 19, when the day's production was 6,817.

The domestic output for the week, the Ford News announced, was 40,463 Ford cars and trucks, 1,048 Fordson tractors and 171 cars in the Lincoln division of the company.

WEEKLY NEWS LETTER

Issued by Publicity Commissioner, Government Buildings Edmonton.

New Auditor

Appointment was announced by the provincial government this week of James Thompson, of New York, recently of Calgary, to be provincial auditor to succeed E. W. Barley, who has been provincial auditor for the past 17 years, and who is to be retired under the new superannuation scheme. Mr. Thompson was, while with the Barley-Harvey, Cole & Richardson in Calgary, engaged for a considerable time on the audit of the provincial government finances following the advent of the present government. During the past year he has been in New York, and has recently completed an audit for one of the largest insurance companies in Alberta.

Wheat Pool for Alberta

Following the visit of Aaron Sapro, cooperative marketing expert, to the province, last week, formation of a wheat pool for the handling of this year's crop will be undertaken under the supervision of a committee of 17 representing all classes. The committee has now been formed and is preparing the campaign for the organization of the pool. The provincial government will advance funds for the initial cost of organization, and will have a representative on the committee in charge. The committee in charge of the organization is as follows:

H. W. Wood, President of the U.F.A. Chairman; U.F.A. members, S. Lunn, Pincher Creek; W. J. Jackson, Drumheller; A. E. Brown, Westlock; C. W. Robertson, Manson; and C. C. Wager, Corralton.

Non-U.F.A. farmers, W. L. Carlyle, Parkland and O. N. Gilbert, Calgary.

Representing grain trade—John I. McFarland and E. S. Melroy, Calgary. Boards of Trade—E. L. Richardson, Calgary; James Ramsey, Edmonton.

Press—C. O. Smith, Calgary Herald; J. H. McDowell, Calgary; Provincial Government—H. J. E. Browne.

A meeting of the members of the legislature was held on Friday at Edmonton, called at the request of the general committee to discuss the organization of the pool.

Coal for Ontario

Shipment has begun to Ontario of 6,000 tons of Alberta coal under the special rate of \$7 a ton granted by the Canadian National Railways for the purpose of conducting a demonstration in various centres in the eastern provinces. The distribution of this coal will be undertaken by Howard Stutchebury, provincial trade commissioner, who is now in Ontario for that purpose. The coal is being taken from mines in the Drumheller district, and in the Edmonton and Pembina and Yellowhead Pass districts.

Autos Over New Highway

During July 1, 1,627 autos passed over the new Banff-Windermere Highway.

way, according to a statement issued by dominion park officials. Of this number over 600 were housewives of various states in the union. From the West came 738 cars, of which 365 were from the U.S. From the Eastern end came 889 cars, of which 235 were from the U.S.

Increase in Immigration

The following statement has been issued from Ottawa in connection with increases in immigration this year.

An increase of sixty percent, in the number of immigrants entering Canada during the last three months as compared with the corresponding quarter last year, and for the month of June alone an increase over the same month last year of 88 percent, is announced by the Department of Immigration and Colonization. The increases have occurred in British and "other countries," while the number coming in from the United States has fallen somewhat but is again increasing. The number of immigrants from all other countries who entered the Dominion during the quarter mentioned this year was 49,592, compared with 25,992 for corresponding period last year. The influx from Britain rose from 11,695 for the quarter last year to 22,553 for this year, while the figures from "other countries" went up from 4,973 for the corresponding quarter in 1922 to 26,939 this year for the similar period. Immigration from the United States this year for the three months was 6,373 as compared with 8,452 for similar quarter last year.

Dr. State Dead

Dr. J. E. State, Liberal member in the legislature for the riding of Clearwater died on Thursday in Vancouver where he had been for his health. Dr. State had been ill since the middle of the last session of the legislature.

SEMI-MONTHLY CROP REPORT

(Issued by the Department of Agriculture, Edmonton)

On the eve of the harvesting season in Alberta, a strong feeling of optimism prevails throughout the province, and with a continuance of satisfactory weather conditions, all crops will be brought in in a generally satisfactory condition. Anticipation of heavy grain crops, with a plentiful supply of food in sight, and general improved conditions on the farms, have had their obvious effect on business in general, which now exhibits a distinctly strengthened tone.

The weather during the past fortnight has been variable, with very warm conditions in the southern districts and with showery weather in the north. In the southern districts, particularly by dips to cool levels of temperature. The front line was touched at several points in the province, with damage to garden truck, but none to grain crops. There have been a few small hail storms during the fortnight with little damage. In some places heavy rains have caused the grain to lodge.

Provided wet weather does not interfere too greatly, harvesting of wheat will be general in the southern districts by August 15, and somewhat later in the central and northern districts. Cutting of some of the early alfalfa has already begun. Harvesting of the hay crop is in progress, and cutting of barley is reported from several districts.

The grain crops have now reached a stage where it is possible to venture upon an estimate as to yields. The wheat has been filled well, and is expected to yield heavily in many districts. The damage by hail which throughout the season has been fairly heavy, will reduce the general yield somewhat. In the southeastern part of the province, extremely hot weather of the past two weeks will be responsible for a slight reduction in yield. The loss from grasshoppers will be severe in the very extensive pestilence campaign conducted by the farmers in the infested territories. Taking the province as a whole, a conservative estimate would place the probable average yield of wheat per acre at between 20 and 25 bushels, which is considerably above the average for the past 13 years. There will be some heavy individual yields, several reports anticipating as high as 30 and 40 bushels. Oats will be a heavy crop, and the average over the province should be between 20 and 30 bushels, with some individual yields touching the 40 and 50 bushel mark, and even higher. Barley will likely give an average yield of between 25 and 30 bushels.

Srative hay and grass crops are yielding well, but there will be very little timothy.

With ideal conditions for breaking and sowing following during the season, there has been considerable of this done, and next year will see a large new area ready for crop.

Harvest Help

Harvesters are now beginning to arrive in the province. From the first arrivals from the east, the province is covered between 600 and 800 men, and another 1,000 have arrived from the coast province. More will begin to arrive as the need for men increases during the next few weeks.

The appeal for volunteer workers from the cities and towns of the province is meeting with fair response. Those who are willing to go to the harvest fields from the stores and homes, and next year will see a large new area ready for crop.

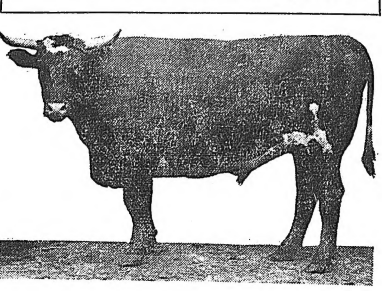

ONE-SIXTH INCOME ON TAXES

Reverting to the expenditure figures, one can estimate with some degree of accuracy the tax burdens of Canada's people. It is evident that in the average city municipality in Canada municipal taxes take about 40 per cent. The Dominion government takes another 10 per cent. Provincial taxes total 10 per cent, taking the average throughout all Canada. This means that the average tax burden of the Canadian citizen is 60 per cent, a heavy load in the Western Hemisphere.

The national income tax would run well above this figure, and in the Maritime provinces it would be somewhat higher. The national income averages only about \$550 a year, and the average citizen is spending about \$1,000 a year in taxes, working in other words, one day out of every week, counting Sunday as a day of rest, to pay for the expense and convenience of being governed.

Fiscalist Post.

C.N.R. CARRIED RECORD SIZED STEER TO 'PEG STOCK YARDS'

The largest steer ever received at the Union Stock Yards, Winnipeg, was brought in on August 1st from Wainwright, Alberta, by the Canadian National Railways. The animal weighs 3,170 pounds, stands six feet at the withers, and is still under five years of age, and brought the record price of \$350 to its owners, Messrs. Stuart and Church, of Wainwright. This is the highest sum paid for any steer in Winnipeg since the war, eight cents per pound on the head. Messrs. Braden and Tarn, the buyers, are placing same on exhibition at the Winnipeg Citizens' Sports Carnival, to be held within the next few days. J. H. Parsons, of Dubuque, Alberta, was the breeder.

Palatial Canadian Pacific Liner To Go On Big Cruise

In the upper left-hand corner is shown the Canadian Pacific palatial liner Empress of Canada, which will make the cruise of the world this winter and early spring. Other vessels depicted are some of the features that will be shown the travellers as they sail the seven seas.

The Splendour of the Empress of Canada.

Nothing under the spreading branch of the tree is a Geksha girl, and no her left is a white tea house near Shanghai.

THE famous cruise of the Canadian Pacific steamer Empress of Canada, posted for this coming winter, is attracting much attention not only in Canada but in the United States and Mexico. The big 21,000 ton liner is especially adapted to world cruising and having won the speed record of the Pacific, the company has chosen this boat to be the flagship of cruisers for the winter months.

The circumnavigators on the Empress of Canada will return laden with the rich experience and mementoes gathered from vision of eighteen different countries and continents, with the costumes, crafts and civilizations of fifty different races. It will be a tour to ports of a thousand romances, unfolding the pages of the world from the cultured west to the barbaric splendor of the east. Shrines, mosques, temples, cathedrals, palaces, and the sacred treasures of the fabled Orient will be revealed to the gaze of these fortunate voyagers.

Leaving New York at a time when the inclement weather drives those who can afford to escape to more equable climes, the Empress of Canada will reach nine days later the rainy shores of Madeira, the

Junks and sampans are shown on the Canton river, while palms throng the coast of Ceylon into shadow.

Immediately after the Canadian Pacific liner will sail the Dalhousie of Vancouver, better known here at Banff.

The gates of Hanoi, with countless minarets in the distance, will offer a scene for visitors, and the lower right-hand picture is of Monte Carlo.

Fields of Europe. The tables at the Monte Carlo casino are forbidden to the twenty thousand local inhabitants who, however, have the consolation of being exempt from taxes.

Naples is the next port of call, the largest busiest and most populous port in Italy. Here opportunity is given to see the chief points of interest in the city and to visit Pompeii.

Port Said and then Cairo and the boat proceeds to Suez the passengers will be given four days in the land of the Pharaohs.

From there, the visitors move on down the Red Sea, past Aden, another British outpost and on across the Indian ocean to one of the greatest ports in the world, Bombay. A stay of a week has been allowed for this port, and many trips inland have been arranged.

After leaving Bombay the passengers will know where they are going as several hundred miles out from the shores of India, the heavily scented and spicy breezes indicate the longitude and latitude of the big liner. Three days are booked for this port.

The trip to Rangoon, the greatest rice port in the world, and also one of the great lumber districts of the world, is also included in the cruise.

Singapore, the busy capital of the Malay states, is the next port of call and Britishers on the trip will be shown the foundation of the new naval base which is to be built there soon.

Over Japan. The next port of call will be in Japan, where all the leading ports will be visited and the Japanese Government is making preparations to demonstrate to the visitors that Japan is a friendly little nation.

The next port of call will be Honolulu and on May 24 will terminate her berth at Vancouver, the passengers going overland from here to their various destinations.

From Manila the travellers will be taken to Hong Kong, Canton, Macao and then to Shanghai, and special arrangements have been made to see China as China is.

Things a Watch Owner Should Know

There is not such a thing as regulation of a watch that needs cleaning. Dust or corroded oil just as apt to make it gain as lose. Many fine watches will continue to run for months after every bit of oil is dried up, but injury will surely follow. When the watch finally does stop, the highly tempered, finely finished steel pivots and winding parts are so badly worn that the cost of repairing will be very high and the watch may never again be as good.

To oil properly and clean a watch, the entire watch is taken apart, more than 150 parts; each part thoroughly cleaned, the old oil taken out and all pivots repolished; the watch is then put together and new oil put in the proper places.

We Sell the Better Grade
For the Better Trade

The Marquis de Cambrun, the French chargé d'affaires, said at a luncheon in New York: "Some people are actually declaring that Germany has now suffered enough, and the allies ought to let her off. If the allies did that they would be like the man at the party. He enjoyed the party. It broke up at about 5:30 a.m. The men then made his way out, balanced at the curbstone and hailed a taxicab. The taxicab drew up beside him and he climbed in at one door and immediately rolled out at the other. Picking himself up, he brushed the dirt from his hat, and took out a roll of bills and said to the driver: 'Well, how much—oh—do I owe you?'"

Two old bachelors were having a conversation on a street car filled with flappers. "What do they call that brilliant red stuff?" asked one. "Lip rouge," responded the other. "No, they didn't. But it is kind of pretty."

The second old boy leaned over and said cautiously: "Do you know, Hiram, I sometimes wonder how it tastes." Then they both grinned sheepishly and turned to market reports.

He couldn't get there on account of an accident, so he sent a telegram: "Classified War are the warships on line." He received this answer: "Borrow a shirt and come anyway."

SWINGING A BUSINESS

Judicious advertising is the derrick that swings a business to success. Classified Want Ads are the derrick that swings a business to success. They help the small ones become big, and the big ones to become bigger.

R. B. WELLIVER APPOINTED AGENT FOR LONDON LIFE INSURANCE COMPANY

The London Life Insurance Company wish to announce to the people of the Red Deer district that they have procured Mr. R. B. Welliver as their District Superintendent, covering the territory as represented in the adjoining field in which Mr. Welliver has operated for so many years.

The London Life is an amazing large clientele through the safety investing public. Owing to their low expense ratio and high dividend returns the public is attracted to the London Life's many up-to-date systems of policies for protection and savings.

There is no better Company to entrust your business to, and we are glad to have Mr. Welliver to look after our interests in this good district of Red Deer.

LONDON LIFE INSURANCE CO. OF CANADA.

BASKET PICNIC

The Oddfellows' and Rebekah's
Will hold a Basket Picnic at Sylvan Lake on
WEDNESDAY, AUGUST 22nd.

All those going from town must positively meet at the Hall before 1:30 p.m., and will then motor to the Lake where sports and games will be held on arrival.

In case of rain there will be no picnic, but there will be a social evening in the Hall the same date.

Don't Forget the Date or the Basket

INTERMEDIATE PROVINCIAL CHAMPIONSHIP SERIES

BASEBALL

ALBERTA AMATEUR BASEBALL ASSOCIATION

DIDSBURY V. RED DEER

(Didsbury are winners of the Northern Section of Rosebud League.)

At the School Diamond, Red Deer

THURSDAY, AUGUST 16, 1923

Game called at 6 p.m. sharp.

This will be the first game of the initial round of the Provincial play-off. The Red Deer team is going in top form at present, and have an even chance of winning their way into the finals. The support of the local fans will help materially toward their success. Show your appreciation of the efforts of the management and the players to give you good baseball by your attendance at all the home games, and at as many of the out-of-town games as you possibly can. The return game at Didsbury will be played on Monday, August 20th.

Admission, 25c. Bleachers, 10c.
